Gail/Bob/Craig:

First, let me express my appreciation for the timely deliveries this week of both the tolling agreement extension and the draft technical documents. Now that we have bought ourselves a bit of breathing room and made some apparent technical progress, we need to focus on bringing this process to a close.

Toward that end, I would like to suggest a final meeting in Seattle, to be held on **May 21-22**. Would that / could that work for everyone? For this meeting, we will be joined by Mike Zevenbergen of the DOJ/EES office here in Seattle, pinch hitting for Sarah who will be away at trial. Between now and then, we have much to do, including reviewing the draft technical docs and reviewing the draft CD and SOW versions that I sent around most recently.

For now, please confirm your ability to make a meeting May 21-22 (or otherwise).

Thanks.

Cliff Villa  
Assistant Regional Counsel  
U.S. EPA Region 10
